ABOUT ORGANIZERS

Stredisko Volneho Casu Ivancice is a center of leisure time activities. It provides a special – interest education and services in the area of upbringing, education, and edification for the general public. It works with children, youth, and adults. It prepares for them hobby groups, occasional and open events, holidays, and spontaneous activities. It participates in national and international projects. It hosts volunteers from 2009.

Academy of Innovation appeared as an informal movement in 2013, as a reaction to the current needs of young people of different regions of Russia. Since 2015 organization provides more educational opportunities for youth, especially intercultural and international projects which impact is so valuable in the current social and political situation. The organization was established by youth workers, representatives from the business and educational sectors willing to cooperate together for common good.

PROJECT DESCRIPTION

During the LTTC (Long term training course) the participants will learn principles of gamification as a methodology of social engagement using elements of game mechanics and will develop methods of using the knowledge and skills in youth work.

The project will give rise to a network of organizations using gamification in youth work, able to stand by each other and multiply fair practices in different social contexts in Europe.

OBJECTIVES

- to learn how to use the tool gamification in youth projects
- to involve participants in the development of a new creative resource (board games and simulations)
- to support cooperation mechanisms among different stakeholders
- share among youth workers and partners common concerns about issues of conflict, conflict management, migration and prejudice, exchange good practices and tools

THE STRUCTURE

TC 1, IVANČICE, CZECH REPUBLIC 17.02-25.02.2022

The first activity will be focusing on different kinds of educational games and simulations, and how to use them in the field of NFE, during their work. During the TC participants will work in groups to design their own games. They will investigate what makes existing games a success before making choices about what to make for their own game.

HOMework STAGE

After the first TC, participants will have the “Homework” stage, during which they will need to organize an activity for local youth, where they will present the game, which they created during the TC. After the game, the evaluation of the process will be organized, where the participants of the game will be able to share their impressions, learning outcomes, and ideas of improvement of the game. The results of the reflection will be shared with other participants of TC in the digital forms, and during the second TC, it will be discussed.

TC 2, IVANČICE, CZECH REPUBLIC 21.04-29.04.2022

The second activity is a continuation of the first part, but it will be dedicated to exploring the method of simulation games in order to enable the participants to use it in their work. In order to successfully reach this goal, we do not only want to demonstrate the variety of different formats of simulation games but also breed enthusiasm among the participants concerning the method, by letting them experience it. Moreover, by the end of TC participants will create their own simulation game.
